Biblia Chora - Rosé

Varietal composition: Syrah 100%

Characteristics: A lively and vivid pomegranate colour. The rich aroma of ripe red fruit like morello cherries, bilberry and strawberry, with some notes of piquant spices are the characteristics produced by this unique variety as it grows on the slopes of Mt. Pangeon. A very well structured wine with a strong flavour; the presence of tannins is discreet and the wine has a characteristic acidity and an enduring aroma.
