Tsipouro IDONIKO 0,7 l

With the innovative technology of the ultra-modern distillery we create this distinguished genuine liquor called Idoniko. The multiple distillation carried out in copper stills removes the unpleasant substances resulting from the boiling, protecting at the same time the delicate aroma of the distil. The fruity character of the carefully selected grape varieties, over a background of orange-tree blossoms, possibly makes the Idoniko tsipouro the most genuine grappa. Try it chilled to experience a true Greek spirit.
